Sisterhood New Member Meet and Greet
Ice Cream Social

12 women met at the home of Ketzi Toney, the Sisterhood President to welcome new Sisterhood members, and get to know each other better. We started off with a random selection of cut

cards and walked the room to find the matching 1/2 to establish a partner. Each member of a pair interviewed the other and then we each introduced our partner to the group.

We learned a lot about each other, and made several connections..one new member's cousin actually lives down the street from a second new member...they had no idea.

Others found connections in cities they grew up or lived in, both on the west coast and the east coast.. Very gratifying to see individuals sharing contact information at the end of event...Time to just get to know each other was the best. Ice cream sundaes and pastries were enjoy by all.

Each attendee was presented with a tin of organic olive oil and mint moisturizer made by Karen Overton, who was unable to attend.
